Earn Continuing Education Credits for: arborists (CEU's), and PlantHealthBC (PHBC); as well as CLP, CLD and CHT renewal credits.

WEED MANAGEMENT - BURNABY - APRIL 3, 2009

To help prepare for the busy season ahead, **Mario Lanthier of CropHealth Advising & Research** will present a one day workshop for ecologically sound landscape services. This workshop will focus on 'Effective Weed Management Strategies' for use in **public, residential and commercial sites**. The information is key for staff working in public agencies, landscape maintenance companies and gated communities. Discussions about tools and techniques will help you design practical and effective programs to meet your customer needs. There will be a strong emphasis on weed management with the least toxic herbicides.

Topics will include:

- **Basics** - For effective, environmentally sound weed management - Do you struggle to identifying the weeds you are managing?
- **Non-herbicidal Methods** - What are the most environmentally sound methods of managing weeds?
- **Herbicides** - What herbicidal materials can I effectively use in the Landscape?
- **Prevention and Efficiency** - What steps can I take as a business owner that will save me time and make me more money?

REGISTRATION FORM - EFFECTIVE WEED MANAGEMENT

** Deadline to Register is March 27th, 2009**
